## CAREER OBJECTIVE

A motivated and enthusiastic Computer Science and Engineering (CSE) student at Daffodil International University with a strong foundation in programming, software development, and problem-solving. Passionate about learning new technologies and developing practical software solutions through academic and personal projects.

## ACADEMIC PROJECTS

### Payroll Management System

- Developed a payroll management application to manage employee information, salary calculations, and payroll records.

### Campus Navigation Map

- Designed and developed a campus navigation system to help users locate university buildings and facilities efficiently.

### Banking Management System

- Built a banking management application featuring account creation, deposits, withdrawals, balance inquiry, and transaction management.
